

## COURSE DESCRIPTION: **Reliability Excellence Application**

Reliability Excellence Application (RxA) is a 3-day interactive workshop where participants experience the fundamental concepts of Reliability Excellence to drive performance improvement efforts within an organization.

RxA is highly concentrated and hands-on, opening with a reliability assessment and exercises focused on the value Reliability Excellence can bring to an organization. Participants discuss the impacts of business process re-engineering and examine best practices to support a reliable environment. RxA introduces essential reliability tools to build a case for reliability and document reliability improvement efforts at their facility. The course concludes by defining objectives, goals and targets to align your organization on the path to Reliability Excellence.

### **Learn How to:**

- **Describe how Reliability Excellence aligns with other strategic organizational objectives**
- **Build a case for Reliability Excellence implementation**
  - Identify key characteristics of the "Excellent" organization
  - Analyze the current state of reliability within your organization
  - Evaluate the benefits of reliability improvement
- **Explain the Reliability Excellence model and methodology that's proven to deliver results**
- **Analyze fundamental reliability processes**
  - Explore the Work Management process
  - Set Materials Management expectations for proactive maintenance
  - Build an effective Preventive Maintenance program
- **Discuss the business process re-engineering methodology as it relates to your reliability processes**
- **Explain Operations' contribution to reliability**
- **Draft Reliability Excellence objectives, goals and targets required to achieve the business case**

### **Who Should Attend:**

RxA will engage all plant personnel, management and associates, who have responsibility for implementing site process improvements. Suggested participants include General Managers, Plant Managers, Operations Managers, Maintenance Managers, Engineering Managers, Procurement Managers, Engineers, Planners, Storeroom Managers and other site personnel.

### **Course Information:**

Each course includes a comprehensive active learning manual, morning and afternoon refreshments, lunch, and the use of a fully equipped e-business center. Classes are held on Tuesday through Thursday. All students completing a class at the Life Cycle Institute will receive a certificate of completion awarding 2.1 CEU's.

**Location:** 4360 Corporate Road, Charleston, SC 29405
