

Monitoring Reliability Excellence (Rx) Progress

You're implementing the Reliability Excellence (Rx) principles and practices...now what?! How will you know the new processes and procedures are providing benefits to your organization? You need a way to measure and monitor progress to maintain engagement and keep your improvement efforts funded.

In this 2-hour course, you will learn how to develop and measure key metrics that quantify the benefits Reliability Excellence brings to your organization. You will learn what performance indicators are and how they motivate people to action. When you leave the class, you will be able to analyze key performance indicators to make reliability-based business decisions.

Learn How To

Discuss how key performance indicators affect behavior

Map reliability indicators to key business decisions

Construct a say, do reinforce plan to monitor Rx Progress

Who Should Attend

Monitoring Your Rx Program is ideal for managers engaged in process improvement initiatives such as Lean, TPM and Six Sigma. Suggestions include General Managers, Plant Managers, Corporate Reliability Managers, Maintenance Managers, Operations Managers, Maintenance and Operations professionals.

Life Cycle Institute

Think it's impossible to have an interactive, effective online course that produces results? Think again. It is possible to meet your training needs in a Life Cycle Institute online course. Be prepared for an active online environment. Our live, web-based courses are highly interactive and combine the elements of social, facilitated and self-directed learning to maximize online training effectiveness. Our courses are designed to teach by doing, and include tools and practical guides to help you implement learning on the job.

- Facilitators who are practitioners and experts in learning transfer
- Participant-centered learning design and online engagement tools – minimal lecture and maximum practice
- Facilitated, social and self-directed learning activities
- Flexible classes so any technical skill level can achieve maximum engagement and knowledge retention
